Reno Anglers Drown as Boat Capsizes Sunday

Companions Swim to Shore, Independence Lake Holds Victims

Dragging operations were being continued today by relatives and friends to recover the bodies of two Reno residents drowned Sunday afternoon in a fishing boat accident on Independence Lake.

The dead men were Chester L. Evans, 30, and Frederick C. Cantwell, 42, both prominent in Reno. With them in the plywood boat with an outboard motor which was swamped by a heavy wave in the deepest portion of the wind-swept lake were Duane M. Ramsey, 29, Reno, and Lee Hunsinger, 28, a former Truckee resident now residing at Bakersfield. Both narrowly escaped when the boat went down about 3:30 o'clock.

Ramsey was the last to leave the sinking boat. He made an effort to save Cantwell, who was his brother in law. He grabbed for the drowning man but he slipped from his grasp and sank in the 250 feet of icy water. Hunsinger swam to shore and immediately set out for aid, walking and running two miles to the resort.

After the mishap, Evans was swimming toward shore but apparently suffered cramps or exhaustion and sank after getting more than half way to safety.

State Patrolmen William Gautsche and Roy Stallard, accompanied by more than a score of local residents, were summoned to the lake and immediately started searching for the bodies. Boats were used in the search but dragging operations failed to locate them. Sheriff Wayne Brown and Deputy Max Solaro of Nevada City arrived to aid, as did Sheriff Dewey Johnson of Downieville. The lake is located near the Sierra-Nevada County line about 22 miles from Truckee.

Dr. L. D. Nelson and Tony Pace were among the local men making the search from boats in the choppy water Sunday night.

Cantwell, son of a Reno attorney, was associated with Ramsey in the contracting business. He is survived by his wife and two children.

Evans, graduate of the University of Nevada and former Navy man, was employed by the Isbell Construction Company. He leaves his widow and parents, Mr. and Mrs. Jack Evans of Reno.

Wm. Mayhew Fatally Injured In Car Crash

Vehicle Plunges 500 Feet In Truckee Canyon Near Hirschdale

Dr. William H. Mayhew, 73, prominent Lake Tahoe resort owner, was killed instantly Tuesday afternoon at 3 o'clock when the light car he was driving went through a guard rail on Highway 40 two and a half miles east of Hirschdale and crashed nearly 500 feet into the Truckee River canyon.

State Patrolmen William Gautsche and Roy Stallard said the car was travelling west when it swerved across the highway and through the fence. There were no skid marks, they said, to indicate what occurred prior to the crash. Mayhew was alone in the vehicle.

The deceased, with his wife, Mary, owned and operated the Ward Creek Cottages and store three miles south of Tahoe City and had for the past several years. In the winter they made their home at Oakland and the body was removed from the Truckee Colonial Mortuary here Wednesday and services will be held in the East Bay city.

Mayhew was a native of Red Bluff and had spent his entire life in California. He was favorably known at Lake Tahoe and his death was a shock to his scores of friends and associates.

Schedule Repair On Damage Part Of Highway 40

The state division of highways this week was authorized to advertise for bids for reconstruction of 1.3 miles of U. S. Highway 40 between the Flycasters Curve and Mystic which was washed out by last winter's floods.

The cost, estimated in excess of $260,000, is to be taken from the emergency damage repair budget.

One of the most important places scheduled for repair is across the Truckee River from Floriston where the deep bank was washed away during the floods, creating a traffic hazard. At Mystic and the Flycasters, the shoulder was also washed away and at the former location, nearly a quarter of a mile of highway was washed out and temporarily repaired.

Sun Beams

by Walter M. Barrett

Truckee can take just pride for the manner in which its residents respond to an emergency or when someone is in need of assistance. In the fishing tragedy at Independence Lake Sunday and in the search for a youngster lost in the wild country the same night, scores of Truckee men and boys turned out voluntarily, going without food or rest and without thought of personal safety gave valuable aid. It is in such cases that the true temper of men is tested and time after time Truckee has responded without thought of thanks or personal gain. Parents and other relatives of the little boy who was found unharmed were most sincere in their appreciation for the efforts of those who joined in the search as local men returned to their businesses and jobs, tired to exhaustion, but well satisfied in their knowledge that they had once again done a good job.

A bouquet this week to Mrs. Gladys Pedley, the cast of the Gay 90's Revue and those who assisted in its production. Of all the adjectives which might be used to describe the show, we think the word "cute" comes as near as any The entertainment was featured by clean fun, very excellent harmony and colorful costumes. The long hours of hard work paid off in the response from the two large audiences and they immediately voted that similar local affairs should be planned for the future.

Scores Scour Alder Area For Missing Youth

Spring Valley Nature Boy Found at Frog Lake After 28 Hours

Nine year old Roger Shadinger wasn't lost — he just wanted to play in the snow.

At least that was the impression he tried to leave with the more than 100 searchers who spent 28 hours trailing him from his parents' camp on Alder Creek to above Frog Lake in the rugged high Sierra Sunday night and Monday.

Clad only in underwear shorts and a T-shirt, the slightly built 60-pound boy was found sitting calmly on a log by Lloyd Van Sickle of Truckee and Archie Hicks, Indian tracker from Stillwater, who followed the wandering track for miles through the thick brush, rocks and woods.

Van Sickle was directed by Hicks to seek fresh signs over a rise in the ground. Finding the tracks, Van Sickle called to Hicks and was greeted by the boy's voice from the nearby log:

"What are you yelling for?"

Apparently unharmed by the experience, the youth was examined by Dr. L. D. Nelson, who had spent the night and day in the search, and then was taken to Reno for a routine hospital checkup.

Hope of finding the missing boy alive were fading when tracks led to the swirling waters of Prosser Creek. Roger explained he had crossed the creek without difficulty and when night fell he made a bed between two fallen trees, rolling a third over them to provide a shelter. He said he saw searchers and the smoke from camp fires but continued in his quest for snow. That he fulfilled this desire was indicated by the tracks in the snow where he had been sliding.

Roger, who was camping with his parents, Mr. and Mrs. Harry Shadinger of Spring Valley, visiting here with Mr. and Mrs. Sam Bryan and Mr. and Mrs. Coleman Hawkins of the Truckee Lumber Company, wandered away about noon Sunday. After searching vainly for two hours, the parents notified Constable N. F. Dolley and an organized search was started.

The Truckee Ski Patrol, under the direction of Ranger E. E. Boehm and Assistant William F. Curran, took to the field and in a short time this group was joined by scores of volunteers. The warden at Carson City prison and his deputy arrived and Archie Hicks, famous Stillwater, Nevada, tracker, joined in the hunt Monday morning. Dolley maintained the radio station at the forest service headquarters to receive and dispach messages from and to the hunters.

Monday morning 30 or 40 boys from the high school were sent into the search and crews from Hobart Mills, the entire crew from the Truckee Lumber Company, Sierra Pacific employees and scores of others spread over the area.

Roger told his parents that he had petted a cub bear and played for a while with a family of coons, possibilities which were not discounted as tracks indicated this may have been probable.

SWANEE'S TAHOE LETTER

Tahoe City, May 27

Dear Tahoeites:

Called several fishing concerns, including Fremier's Sporstmen's Port at Sandy Beach, and all declared anglers are having exceptional luck. Nice weather has prevailed, which has helped considerably. Fremier said Sunday night that out of 37 boats which have gone out recently, 33 of them have caught the limits, the largest fish so far a 9 pound german brown. Most fishermen who frequent Tahoe waters annually declare they have never seen the season better. While no whoppers have been heard of on this end to date, fish are averaging from 3 to 6 pounds. Waldo Gross of Lake Forest has taken numerous parties out this season and reports excellent success. On Sunday he took out three who all brought in their limits, an aggregate of around 30 pounds of fish. All the fish he has seen caught were mackniaw, excepting one steel head, the largest of the former weighing 8½ pounds. At Tahoe Boat Company wonderful fishing has been reported since the season started with some good sized beauties being caught from the pier. If the good weather of the present continues, there is every reason to believe this will be a banner fishing year for the Lake Tahoe area.

Latest reports from Dave Chambers on Saturday regarding the condition of his boat captain, Al Coupure, who was painfully injured on May 22 while en route to Lake Tahoe for the summer season, are favorable. He suffered a crushed chet and broken pelvis and has been placed in traction in the Lone Pine hospital to which he was taken. The accident occurred about 20 miles south of Lone Pine on Highway 395. The only witness was a telephone man working on a pole about half a mile from the scene, who said that Coupure tried to pass the car ahead, saw he couldn't make it when a car loomed up in the left lane and in order not to collide headon, he swerved the red fire truck of Chambers' he was driving up a bank. It turned over four times and pinned Coupure under one of the doors. A gallon of white paint which was part of the cargo broke open and covered the victim and surrounding objects. He was rescued some time later by four members of the highway department. The Chambers' belongings, adding machines, typewriters and other luggage being brought to Tahoe for the summer were strewn in all directions, with three suitcases filled with

SUMMIT SCENE

by FRAN COUILLARD

No. 1 on the mountain hit parade for this past week's activities was the charivari given Mr. and Mrs. Elmo Moriano last Thursday night when Elmo's neighbors got together to welcome he and his new bride, the former Jeannie Carder. Mr. and Mrs. Felix Moriano of San Francisco journeyed up to help throw the party for their only son. The affair was the usual pot-luck that accompanies a charivari with salads, sandwiches and the works being brought in by the mountain folk. Donna Werneke of Donner Lake Lodge, Betty Horak of Donner Summit Lodge and Doris Chaplin of Rainbow Tavern made the most noise with their improvised noise makers, such as spoons and dishpans, clashing tin cans and horns as they led the crowd that descended on Beacon Hill Lodge. We really believe that the honored ones were really surprised. The rest of the 35 attending also added to the merry din.

Day Tschopp asked us to a delicious dinner which we regret to admit added another year to our life—not the dinner but the fact that it was our natal day and we have never celebrated it under more stomach satisfying circumstances. Even a birthday cake with but one candle. Thanks, Day.

We still aren't supposed to tell what goes on behind the closed doors of Soda Springs Hotel but we will say that Brant Chaplin let us take a small peek a few days ago and the place we've frequented since its inception is undergoing a terrific change. All appointments are revolutionary from the —but we're not supposed to tell. Look for an opening some time in July, say the Chaplins.

Mr. and Mrs. Ernie Johnson have returned to Rainbow Tavern, having arrived from Roseville this week.

We've lived on this mountain for a number of years and we say, without reservation, that the trek to the mountains this past week end for the opening of fishing season was the most substantial we've seen. Streams which we believed would be practically denuded of fish due to the heavy floods of the past winter surprised us by yielding the best looking trout we've seen. The first batch we "oohed and aahed" over were in the creel of Ray Meyers who made a beautiful catch at Ice Lakes. Shortly after, Earl DeBeau landed the grandpapa of them all near Rainbow. Lake Van Norden also cooperated by giving its cold, firm fleshed catfish to the natives by the basket and even surpised us by teasing with a trout or so. We are happy that our visiting fishermen caught plenty of limits; we are more happy that the record breaking catches will encourag fishermen for the balance of the season.

The area teems with loggers and road construction crews as the Sierra gets ready to give their timber. Camp equipment and logging trucks regularly spot the road from Emigrant Gap on up. Steen's Motel starts the season out with a bang as it fills with crews who are working in the area. Moriano at Beacon Hill fills his annex with loggers. Every nook and cranny contains a trailer housing a logger's family. Forcing winter snows ahead of heavy equipment, roads are being built into back country, including the Kingvale stretch, French Meadows and several others. Between fishermen and loggers, the dead season can be heralded as at an end, weeks ahead of schedule. Old Sol has been cooperating also—not even the usual "last minute snow storm" or a thunder shower to mar the perfection of a really and truly grand spring opening.

The last remnants of the ski hills are being picked up by the usual treasure hunters. Jim Sherritt comes home with a few cents, an old comb and a bunch of keys. Jess Thompson of the Cedars combs up a few cigarette lighters and a little small change. Goldie Rowton ditto. Old gloves (we always find but one) ski goggles with a broken lens and a well used lipstick has been our hunting reward so far. Darn the manufacturers now that put zippers on skiers' pants—used to be that combing the hill after snow melting time was a profitable pastime.

Donner Summit Lodge employes wash windows, light fixtures and polish furniture as the prepare for the opening of smorgasbord season. Bud Horak says the date will be June 23.

Ice Lakes will open up shortly with a surprise for its many frequentees—a new cocktail lounge—says Bill Rutherford.

by THELMA BURROUGHS

Mrs. Robert Hapgood of Palo Alto was a guest over last weekend in the A. E. Abbott home where her son Walter has wintered while attending the Kings Beach grade school.

Ruth and Richard Lavery were much surprised on Monday when Dick's brother, John, brought their mothers up from Sacramento for a couple of days visit.

With all participants busily engaged in seasonal activities, the Tahoe Twirlers expect to discontinue their regular Friday night get togethers until after Labor Day.

Mr. and Mrs. Ed Meadow-Croft and daughter, Paula, accompanied by Marshall C. Smith, all of Oakland, came up Friday for a short visi with The Burroughs. Ed and Marshall returned to Oakland on Sunday, leaving Mrs. Meadow-Croft to visit during the week Pauline and Nancy Smith who will be with us for the summer. Meadow-Crofts like the lake so well that they plan to purchase a lot in Tahoe Estates and build for year 'round living within the year.

Friends of the Rafdals will be glad to know that Helen is somewhat improved after having been ill for some time.

Mrs. Jack Judy will attend the annual Methodist Confernece in Stockton June 12 to 17 as Kings Beach Community Methodist Church delegate. Mrs. Joy Plunkett will represent our Sunday School at the Pacific School of Religion in Berkeley June 25-29.

Good to see Bill Althof back on the job after a few days off while investigating a job in warmer down around Sacramento.

Kings Beach branch of the Placer County Library is open daily, or by appointment, for convenience of residents and vacationists, at The Burroughs. Make use of your library. You're welcome to read in the lobby or to take books out.

Floriston Home Damaged By Fire Saturday

FLORISTON— Fire of undetermined origin broke out Saturday afternoon in the John Hartwick home. The Hartwicks at present are staying in Hawthorne and the house was being occupied by the Carl Leisure family while remodeling work is being done on their home. No one was in the house at the time as the Leisures were at their home working on it. The fire was quickly brought under control with most of the fire damage being confined to the bedroom. Considerable damage was done throughout the house by water. H. C. Savage was cut on a finger with a piece of glass and had to have seven stitches taken in it, which was the only injury.

Mrs. Chambers' clothing being ripped open and scattered. The fire truck was reported a total loss. The injured man has many friends in this area, having worked for Chambers for a number of years both here and at Hotel Samarkand in Santa Barbara. His many friends join in wishing him speedy and complete recovery.

A. R. Specht of San Francisco has written that the family's summer place at Homewood will be opened this week. Rose Boyiaredes has returned to greet her many friends at Tahoe City, following several months spent in Arizona.

Mrs. Stella Watson came back to Tahoe for the summer last week and is busy getting her house in Tahoe City in order, as it will again be rented for the summer by E. P. Hunt who last season occupied the place. Stella was accompanied to Tahoe by her nephew Teddy McCrary, who has two weeks vacation from his job with the county welfare board in Oakland. The Watsons will reside at the old Watson Mill property as usual, located northwest of Lake Forest. On Friday Mrs. Watson had the misfortune to drop a heavy anvil on her left foot. Dr. Nessim of Kings Beach administered first aid and declared the bones in her foot had been badly bruised.

Numerous guests have visited the Bud Scotts at Carnelian Bay during the past week. Among them Mrs. Scott's brother, James D. Ross, his wife and son Michael of Hawthorne, Calif., who were dinner guests last Wednesday. On Friday evening, guests for cocktails and dinner at Cal-Vada were Mr. and Mrs. Clay Sherman and son Howard Lackey of Piedmont. Sherman, who stands a good 6 foot 6 in his stocking feet, will be remembered by those who lived at the lake 12 to 15 years ago as the young man who attempted to swim the lake non-stop. He was started at midnight by his manager from Cave Rock and when less than four miles from the Tavern was taken from the icy water with cramps in his legs and hips. He would have made it if he had been started at dawn instead of the middle of the night as he was a powerful swimmer. I was his publicity manager and will never forget the eventful night and the crowd that went along to watch. The object of the night crossing was to avoid the rough water which usually hits the Nevada shore about noon when the wind comes up. Mrs. Myrtle Huddleson made a successful crossing some years earlier and one other woman is known to have made the swim in good shape but her name escapes me at present. It may look easy but it is a gruelling task.

A letter has arrived from Mrs. Lee Hand of San Francisco, who with her doctor husband and children, Marilyn and Lee Jr., each year enjoy the summer at their home in Timberland Tract. The Hands have just returned from a wonderful vacation in the Hawaiian Islands. They sailed from S. F. on the Lurline and were thrilled at everything they saw, starting with the colorful reception visitors receive as the ship arrives. They had reservations at the Royal Hawaiian Hotel and toured the island of Oahu, saw pineapples and sugar cane growing and marveled the exquisite flowers. Then followed a four day inter-island trip by plane. One of the big thrills for Dr. Hand happened off the Kona coast when he enjoyed ocean fishing and caught a 150 pound marlin. The sword is being sent the Hands as a souvenir and his picture with the marlin is going the rounds of his host of friends in the bay area. Also on their visiting list was the island of Hilo where the orchids and antheriums grow, beautiful beyond description and another stopenjoyed was at the hotel on Maui. After another week in Honolulu then enplaned for home, smooth flying continuing all the way home at an altitude of 19,000 feet. Their daughter Marilyn is a sopohmore at Stanford this year and their son Lee Jr. is in cadet training with the Air Force at Perrin, Texas, where he has already made his first solo flight. The senior Hands are arriving at Tahoe next week to spend a few days at Timberland.

On my way to town yesterday noted the many Tahoe wild flowers now in full bloom. Among them are bridal wreath, buttercups, lupin, indian paint brush, the pale pink, blue and white dwarf phlox, pale lavender squaw carpet, manzanita, and a single flaming red snow plant. Out on the Tahoe City golf links, yellow dandelions cover the lawn like a carpet. Wyethia is budding but has not yet reached the flowering stage. In home gardens tulips, daffodils, china lilies, violets and pansies are a riot of lovely color. Leave you for the week with sincere good wishes to all, as ever, Swanee.

How to make good telephone service even better....

You speed Long Distance service when you place your call by number

In these busy telephone days, when so many calls that help build our nation's strength are going over Long Distance lines, you'll find your operator can give you much faster service on your out-of-town calls if you give her the number you want rather than just the name and address. That way, you see, you won't have to wait while she calls "Information" to get the number you're calling. So why not start your own out-of-town number list right away?

best way to keep out-of-town numbers is in a handy booklet, kept near your telephone. One way to get the numbers is by asking your friends for their number whenever you're in touch with them.

Pacific Telephone

It Costs Less To

Electricity is one of the biggest bargains these days. It actually costs less than it did in the depths of the depression—and you'd search a long, hard way before you'd find anything else in common use of which that is true. In every home and in most businesses, the power bill is one of the smallest and least painful items in the operating budget.

One observer recently pointed out what a penny's worth of electricity will do. He said it will:

Give an hour and 53 minutes of light from a 110-watt bulb;

Buy three hours and 46 minutes of radio entertainment.

Run your vacuum cleaner for 28 minutes;

Toast 24 slices of bread two at a time in a pop-up toaster.

And so on, ad infinitum.

Where else these days can you get as much for a lowly copper cent?

AFTER FOLLOWING THE NATIVE TRAPPERS TO A STRANGE BUILDING, TARZAN HEARD A HORRIFYING SCREAM. AT DUSK HE SNEAKED TOWARD THE STRONGHOLD TO INVESTIGATE.

VAULTING OVER THE TOP OF THE STOCKADE, TARZAN DROPPED SILENTLY INTO THE DARKNESS BELOW.

SUDDENLY SEVERAL ROPES TIGHTENED ABOUT THE APE-MAN'S NECK!

HIS CAPTORS LED HIM INTO A STRANGE ROOM LITTERED WITH VIALS AND CHEMICALS--AND MANY CAGED APES!

A WITHERED OLD MAN WATCHED HIM APPROACH. TARZAN SNARLED IN ANGER! SO! A MAD SCIENTIST CAUSED THE APES' CAPTURE!

THE SCIENTIST MUMBLED, "I HAVEN'T SEEN A WHITE MAN IN TWENTY YEARS. WHO ARE YOU?" HE PAUSED, THEN SHOUTED INSANELY. "I KNOW! YOU WANTED TO STOP MY EXPERIMENT, BUT YOU'RE TOO LATE!"

"TAKE HIM AWAY!" THE MAN RUBBED BONY HANDS TOGETHER AND CACKLED SOFTLY. "TOMORROW--IT WILL DESTROY YOU!"
